

European approach – digitalization for sustainable development

Michael Akim

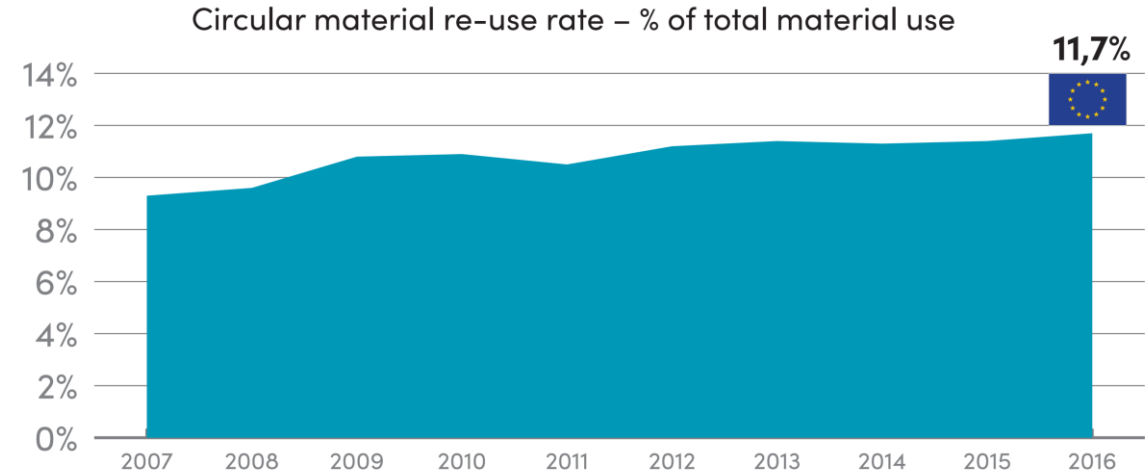

European approach – digitalization for sustainable development

Education for new skills. Circularity

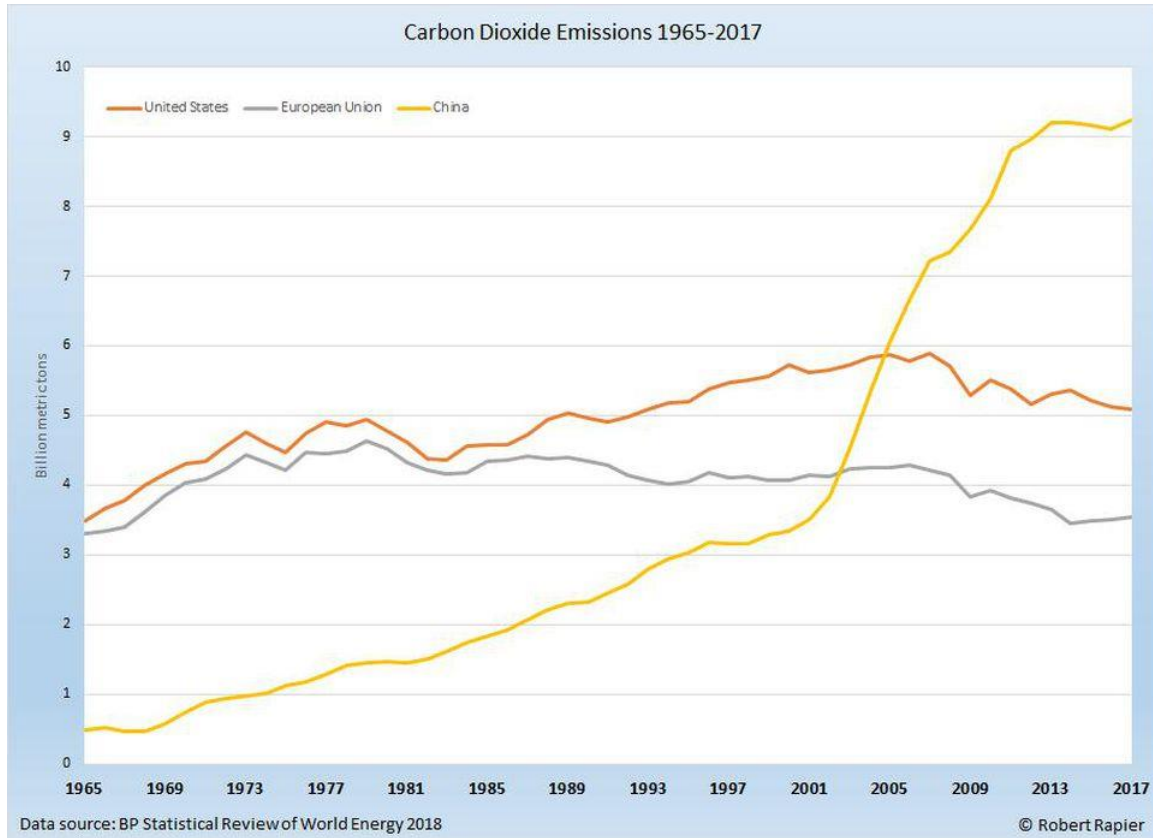

Less than 1 month | 1 to 3 month | 3 to 6 month | 6 to 12 month | over 1 year | no reskilling needed

Source: World Economic Forum, 2018

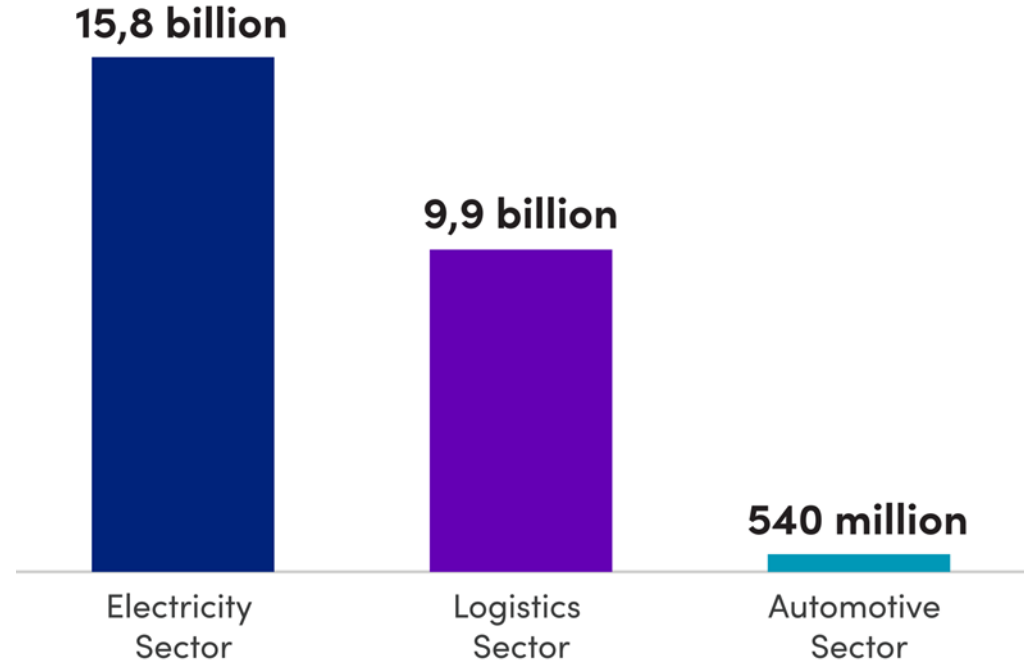

European approach – digitalization for sustainable development

Emission reduction

Expected metric tones of net CO₂ emissions avoided thanks to digitisation from 2016 to 2025

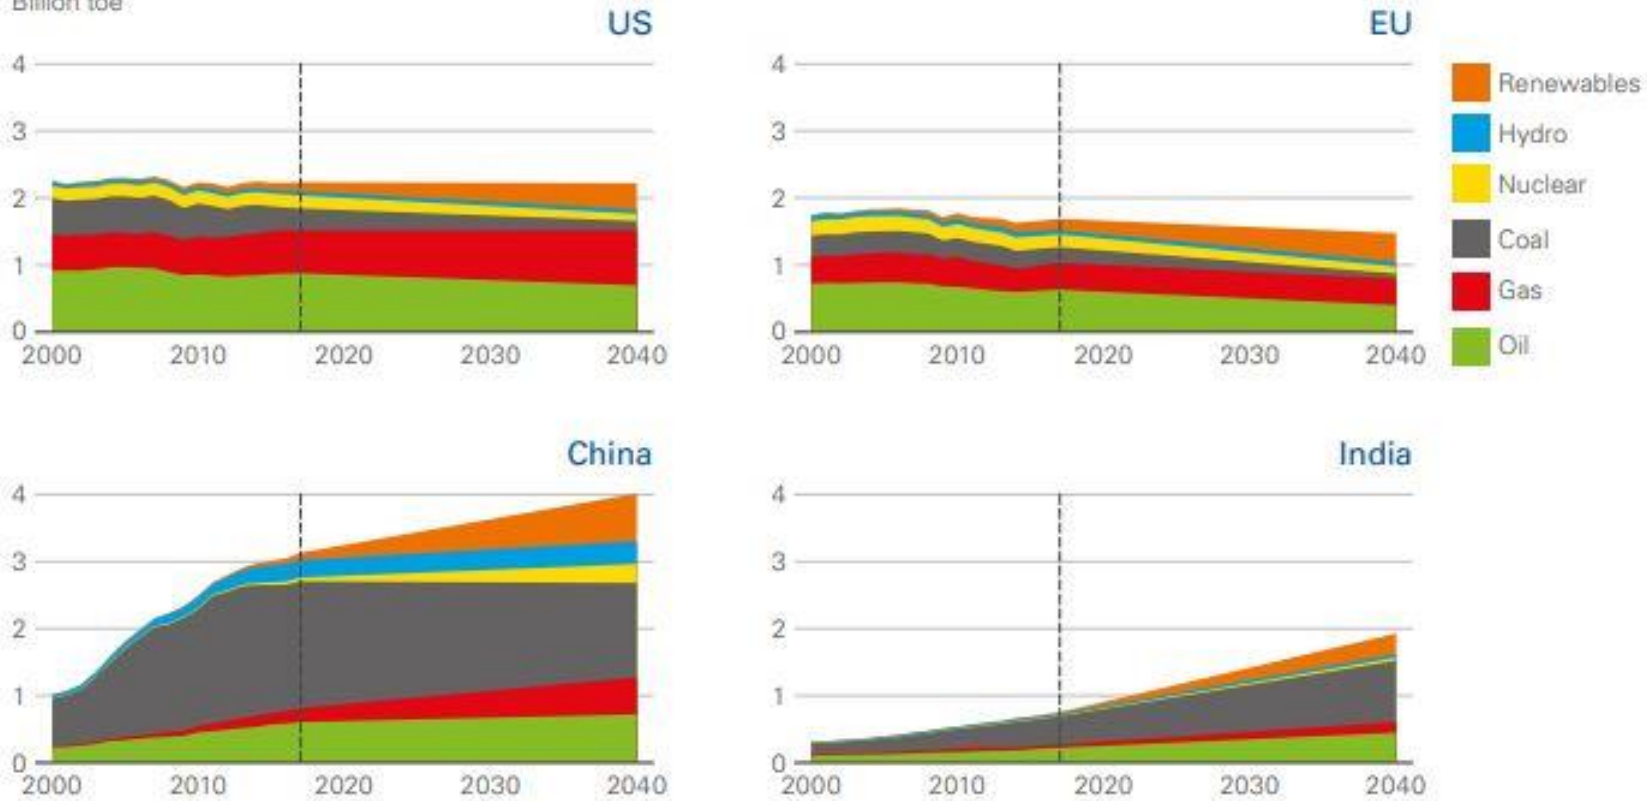

European approach – digitalization for sustainable development

Energy consumption reduction

Primary energy consumption by region and fuel

Billion toe
