IN 2022, WE WILL HAVE A NEW EDITION, IN AN INNOVATIVE FORMAT

In its debut in the heart of Rio de Janeiro, Rio Oil & Gas innovates once again by bringing the entire experience of the in-person event to its digital platform. In both versions it will be possible to network, learn about new products and services, and of course, watch all the high quality content that will be presented at one of the leading congresses in the world

A region with an environment that allows countless other activation possibilities to further amplify the visitor's experience, promote more presence of the event in the city and together bring more exposure of sponsoring and exhibiting brands

Rio Oil & Gas 2022 maintains the digital platform of the 2020 edition, becoming the **epicenter of the O&G industry**. An event that remains active in the digital environment, bringing interactions to the entire public

The 2022 online event returns with more activities that will complement the 4 days of the in-person event:

- More **content** channels, in addition to all the channels already available **OnDemand**
- **Live broadcast** of all **congress and studios** where sponsors and exhibitors will be presenting their own content
- **Profile showcase** of all exhibitors and sponsors of the event so that the public can get in touch and **networking** both in person and digitally
